

# Openserve Fibre Connect

Scale, Speed, Reliability, Flexibility

# Every partner needs a **connection**

When choosing a fibre connection for your customer, there are four criteria we believe are the most important:

As SA's national connectivity leader, Openserve meets these criteria and so much more.

We are committed to delivering innovative services and improving the future of our client's businesses.

# Committed to our **connection**

---

Our business is all about building your business, no long term contracts, easy month to month arrangements with tools that provide you with everything you need to manage and grow your customer base.

Get your customer connected to SA's most experienced fibre infrastructure provider. Since launching in 2015, we have passed 1 200 000 homes with fibre and 2.4 million households have been covered with fibre to the cabinet. But more than having the widest footprint across SA, Openserve continues to work relentlessly at offering the customer the best value and best network experience.

Openserve's fibre broadband access is part of our ever expanding 151 000 km plus of national fibre deployment, all backed by a world class national and international all IP network. Openserve actively monitors market trends, and our product range is subject to speed and other changes in accordance with these trends.

# A connection for **every purpose**

50 Mbps

100 Mbps
